*** Implementing the LS Action Platform**
We intend to begin in **early 2021**, by inviting a certain number of the above institutions to begin their 7-year journey of integral ecology in the spirit of *Laudato Si'*. The following year we will encourage a new group, hopefully double the number of the previous group, to begin their 7-year journey, and so on.
In this way we are planning to grow a Laudato Si' inspired network that continues to expand and grow **exponentially each year**. This will continue for each of the coming years of the new decade. In this way, we hope to arrive at a **"critical mass"** needed for radical societal transformation

"We are aware that the cries of the earth and of the poor have become even louder and more painful in recent years. At the same time, we also witness how the Holy Spirit is inspiring individuals and communities around the world to **come together to rebuild our common home** and defend the most vulnerable in our midst. We see the gradual emergence of a great mobilization of people from below and from the peripheries who are generously working for the protection of the land and of the poor.

(Pope Francis' Message for the Season of Creation: 1 September 2020)

The perfect model of care is Mary who "cares with maternal affection and pain for this wounded world. Just as her pierced heart mourned the death of Jesus, so now she grieves for the sufferings of the crucified poor and for the creatures of this world laid waste by human power."
